👛 Professional Experience

Full-Stack Web Developer

Sr Integrated Circuit India Pvt Ltd — Bangalore

Sep 2024 – Oct 2024

- Developed responsive and interactive components for "Component Buy" using Svelte and Tailwind CSS.
- Focused on optimized styling and delivering a seamless user experience through modern, reusable design patterns.

Software Developer

Tata Teleservices Ltd — Noida

May 2023 – Jun 2024

- Improved website usability and performance using HTML, optimizing loading speeds, and enhancing overall functionality.
- Debugged and enhanced site quality, ensuring an error-free user experience.

💡 Projects

1. InstaClone

A social media platform for sharing photos and messages, designed to connect people and brands. Includes Stories, Reels, and direct messaging for a more interactive experience.

Oct 2024 – Oct 2024

- **GitHub Repository:** 🔗
- **Live Demo:** 🔗
- **Tech Stack:** HTML5, CSS3, JavaScript, Redux, Context-API, REST API, API, Multer, Socket.io 🔗, MongoDB, Cloudinary, React +Vite, Tailwind CSS, Shadcn UI.
- **Project Details:** Developed as a solo project, InstaClone is a full-stack social media platform that leverages modern web technologies. The front end, built with React+Vite, HTML5, CSS3, and Tailwind CSS, ensures a seamless user experience. State management uses Redux and Context API, with real-time features powered by Socket.io 🔗. The backend integrates MongoDB, Cloudinary, and Multer for a robust, responsive application.

2. TheBrandBeeClone

A branding website designed to create a distinct business identity.

Dec 2023 – Feb 2024

- **GitHub Repository:** 🔗
- **Live Demo:** 🔗
- **Tech Stack:** HTML, CSS, JavaScript, React, Tailwind CSS, iframe, Chakra UI.
- **Project Details:** As a solo developer, I utilized HTML, CSS, JavaScript, and React to build the website. I focused on CSS development, creating the navbar, landing page, and multiple additional pages with the footer. I implemented a carousel slideshow and animation effects, and used an iframe to directly display a YouTube video.

💡 Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React, Redux, Svelte.
Backend: Node.js, Express.js, MongoDB
